

SECTION 1 · COVER

Right Hand Executive Placement Program

FULL NAME	Giuliana Denise Acevedo Struciat
APPLICATION EMAIL	deniseacestruciat@gmail.com
LEAD MAGNET TITLE	<i>The 10-Minute Bottleneck Audit: How 7-Figure Founders Reclaim 20+ Hours/Week Without Micromanaging a Reactive VA</i>
FUNNEL TOOL USED	Lovable (React landing page) · Calendly (booking) · Google Docs (lead magnet & SOP delivery) · ClickUp (project breakdown) · diagrams.net (business map) · CRM with pipeline tagging & automations · Loom (walkthrough)

This submission delivers a complete end-to-end lead magnet and high-ticket funnel for placing Latin American **"Right Hand" Executive Assistants** with 7- and 8-figure founders (\$500K–\$5M+ ARR). It covers nine parts: market research, funnel journey map, project SOP, lead magnet design, live asset delivery, page copy, CRM pipeline & automation, AI ad creatives, and a 2-minute Loom presentation video — all tested and launch-ready for October 7, 2026.

Every link is listed on its own line with its exact label and direct destination URL.

PART 1

Second Brain, Competitor Research & ICP Setup

WHAT I BUILT

Comprehensive diagnostic teardown of Athena, Shepherd, and Boldly. Synthesized target ICP: 7- and 8-figure agency CEOs & founders (\$500K–\$5M+ ARR) suffocating in operational drag. Mapped core pain points into 3 distinct founder archetypes: The Trapped Agency Owner, The Fast-Scaling CEO, and The Disorganized Visionary.

WHY

Generic virtual assistant positioning attracts low-budget clients seeking cheap labor. Positioning specifically around executive operational leverage justifies high-ticket placement pricing and attracts serious 7-figure operators.

LINK LABEL [Landing Page \(LP-MAIN-01\)](#)

PART 2

Funnel Journey Map (Business Map)

WHAT I BUILT

End-to-end interactive architecture map designed in diagrams.net with Google Drive backup. Diagrams full journey: Ad traffic (5 creative angles) → Landing page & intake form → Bifurcated routing (Qualified route to Calendly booking; Unqualified route to direct asset download) → CRM webhook tagging & pipeline → Email nurture & pre-call reminder sequence.

WHY

A comprehensive visual map aligns all technical and marketing stakeholders, eliminates lead leakage at branch points, and ensures zero single points of failure across the funnel infrastructure.

LINK LABEL [Business Map \(diagrams.net\)](#)

PART 3

ClickUp Project Breakdown & Launch SOP

WHAT I BUILT

1. ClickUp Project Breakdown (CLICKUP-OPS-01): Built backwards from Oct 7 with 6 core milestones (Research, Lead Magnet, Funnel, CRM, Ads, QA). Every task assigned an Owner (Giuliana Acevedo), strict Deadline, Status, and Priority. 2. Written Launch SOP (SOP-OPS-001): Authored a complete, step-by-step Standard Operating Procedure with 5 structured phases (Research & ICP, Asset Production, Funnel Wiring & Bifurcated Routing, CRM & Nurture, AI Ads & QA) so subsequent lead magnet campaigns can be replicated with exact precision.

WHY

Backwards-planning from the launch date guarantees on-time delivery with zero ambiguity. Writing the step-by-step SOP ensures institutional repeatability, enabling any team operator to execute future lead magnet launches flawlessly.

LINK LABEL [ClickUp Breakdown \(CLICKUP-OPS-01\)](#) · [Launch SOP \(SOP-OPS-001\)](#)

MODULE 1 Chosen Format & The 10–Minute Promise

- **Format:** Interactive Diagnostic Workbook & Architecture Matrix (Delivered live as an easily copyable Google Doc and integrated on–page interactive intake tool).
- **Asset Title:** *The 10–Minute Bottleneck Audit: How 7–Figure Founders Reclaim 20+ Hours/Week Without Micromanaging a Reactive VA.*
- **One Specific Problem It Solves in <10 Minutes:** Eliminates acute "Founder Drag"—the 15 to 20 hours/week founders waste on low–leverage \$10–\$50/hr administrative trivia (inbox triage, calendar juggling, recurring team check–ins). In under 10 minutes, the 4–Quadrant Matrix quantifies their exact hourly opportunity loss (\$985/hr founder rate) and installs the Green/Yellow/Red Decision Protocol to eliminate 90% of daily team interruptions immediately.

MODULE 2 MAGIC Naming Formula & Hormozi's Value Equation (Day 5)

THE MAGIC NAMING FORMULA

- **M (Magnet):** Solves acute 7–figure founder operational chaos.
- **A (Actionable):** 4–Quadrant diagnostic matrix & decision rules.
- **G (Goal):** Reclaims 15–20 hours/week of high–leverage CEO focus.
- **I (Instant):** Completed in <10 minutes with immediate clarity.
- **C (Clear):** Unambiguous Green/Yellow/Red categorical rules.

ALEX HORMOZI'S VALUE EQUATION

- **Dream Outcome (↑):** Complete operational freedom; founder focuses strictly on \$1,000/hr visionary growth & enterprise sales.
- **Perceived Likelihood (↑):** Top <0.1% talent, Predictive Index vetting, 93% retention, 100% Matching & Lifetime Guarantees.
- **Time Delay (↓):** Instant audit in <10 min; candidate placement in days.
- **Effort & Sacrifice (↓):** Zero babysitting; autonomous operator runs via Black Box Delegation & daily Slack digests.

MODULE 3 4–Question Qualification Criteria & Bifurcated Routing (FORM–QUAL–01)

The intake form strictly filters traffic to protect executive sales capacity while providing immense goodwill to early–stage founders:

QUALIFIED ROUTE (OFFERED A CALL)

- **Revenue:** \$500K–\$1M ARR or \$1M–\$5M+ ARR (has proven cash flow & \$985/hr opportunity cost).
- **Team:** 5–20 or 20+ operators | **Timeline:** Immediate / <30 days.
- **Routing & CRM:** Auto–redirect to Calendly (B00K–CAL–01) for 30–min strategy session. Tag status:qualified, \$7,500 ACV opportunity, instant team notification.

UNQUALIFIED ROUTE (DIRECT DELIVERY)

- **Revenue:** Under \$500K ARR (sub–scale for high–ticket EA placement).
- **Team:** 1–4 team members | **Timeline:** "Just researching".
- **Routing & CRM:** Auto–redirect to /thank–you page with instant Google Doc download. Tag status:unqualified, Email U–1, zero calendar waste.

MODULE 4 The Next–Step Offer: Why a Qualified Founder Should Book a Call

- **The Core Problem Solved:** The Audit diagnoses the exact hours lost (\$985/hr founder rate), proving the bottleneck is real. However, hiring cheap offshore VAs traps the founder in the *Reactive VA Trap*—spending 10 hours a week babysitting, reviewing broken English, and managing 12–hour timezone delays.
- **The Solution — Pareto Right Hand Placement Program:** Elite Latin American executive operators (top 0.1% acceptance rate) operating in *identical US timezones (EST/CST/PST)*, pre–vetted with Predictive Index behavioral assessments, and trained in proactive inbox triage and calendar shield.
- **Ironclad Risk Reversals:** 100% Matching Guarantee & Lifetime Replacement Guarantee, proven by a 93% 12–month client retention rate.
- **The Strategy Call Pitch:** A 30–minute *Delegation Architecture Session*. On the call, Pareto reviews the founder's completed Bottleneck Audit, designs their custom Right Hand scorecard, and maps an exact 14–day onboarding blueprint to reclaim 20+ hours/week with zero training headache.

Link Status: Documented in Part 4 of this submission. No separate link needed (as specified in final project guidelines).

PART 5

Lead Magnet Asset & Live Delivery

WHAT I BUILT

Published live as a shareable public Google Doc incorporating the 4-Quadrant Matrix, Black Box Delegation Model, and Green/Yellow/Red Decision Architecture. Completely on-brand with Pareto styling. Immediate delivery email configured upon form opt-in with pre-call booking instructions.

WHY

Instant delivery removes friction, provides immediate standalone utility even if the founder never books a call, and demonstrates operational speed as a tangible proof of Pareto's standard.

LINK LABEL [Lead Magnet PDF \(TY-PDF-01\)](#)

PART 6

Funnel Architecture, Page Copy & Agenda Integration

WHAT I BUILT

Landing page live on Lovable/React: Hero, What's Inside, Who It's For, Proof stats (<0.1% acceptance, 93% retention, 20+ hrs reclaimed, 100% guarantee), and embedded form. 4-question qualification intake: Qualified leads route to Calendly (BOOK-CAL-01) with pre-filled metadata; unqualified leads route to the dedicated /thank-you screen delivering the audit directly.

WHY

Frictionless bifurcated routing protects sales capacity while maximizing opt-in velocity and perceived executive authority.

LINK LABEL [Landing Page \(LP-MAIN-01\)](#) · [Booking Page \(BOOK-CAL-01\)](#)

PART 7

CRM Pipeline & Automation Workflows

WHAT I BUILT

Five-stage pipeline (Opted In, Qualified, Call Booked, Client, Unqualified Leads) fully codified with trigger automations, \$7,500 opportunity generation, and internal team Slack alerts. Complete 7-part email & SMS copywriting suite: 3-email qualified follow-up sequence (Q-1 at 4h, Q-2 at 24h, Q-3 at 48h), unqualified instant delivery email (U-1), and Calendly pre-call show-up sequence (confirmation, 24h reminder, 1h SMS nudge). Full QA verification with 3 test cases passed.

WHY

Automates nurture and sales ops without human friction, ensuring zero lead leakage and maintaining an 85%+ target show rate on scheduled strategy sessions.

LINK LABEL CRM Pipeline & Email Suite (Google Doc)

PART 8

Launch Materials & AI Ad Creatives

WHAT I BUILT

Unified visual identity guidelines (Deep Obsidian #0B0F17, Laser Emerald #10B981, Swiss typography). Five complete Facebook ad creatives across distinct angles (AD 1: Trapped Agency Owner, AD 2: Reactive VA Trap, AD 3: \$1,000/Hour Founder Math, AD 4: Green/Yellow/Red Framework, AD 5: Right Hand Blueprint). Each ad includes Hook, Qualifier, Mechanism, Proof, Offer, CTA, and a production AI image prompt.

WHY

Diversified creative angles prevent ad fatigue, target different psychological triggers within the same ICP, and maintain rigorous visual consistency with the funnel and lead magnet.

LINK LABEL Ad Creative Suite (AD 1 – AD 5 Google Doc)

PART 9

2-Minute Loom Presentation Blueprint

WHAT I BUILT

Executive 2-minute video walkthrough recorded and published live on Loom (https://www.loom.com/share/Ofd0922b3f874a2ab4a11df334aedcOd). The presentation executes the precision 5-tab walkthrough: Ad Creatives → Live Landing Page & 4-Question Intake Form → Calendly Qualified Booking Route → The 10-Minute Bottleneck Audit Google Doc → CRM Pipeline & Automation Engine. Delivered with crisp spoken commentary articulating the strategic positioning, high-ticket backend bridge, and verified launch readiness.

WHY

A live recorded screen walkthrough proves that the entire end-to-end funnel is fully built, integrated, and verified to operate seamlessly with zero technical friction.
